

# Axial kit EAMM-A-P4-28B-40A

Part number: 562637

FESTO

## Data sheet

| Feature                          | Value            |
|----------------------------------|------------------|
| Type code                        | EAMM-A           |
| Mounting position                | Any              |
| Storage temperature              | -25 °C ... 60 °C |
| Relative air humidity            | 0 - 95 %         |
| Degree of protection             | IP40             |
| Ambient temperature              | -10 °C ... 60 °C |
| Transferable torque              | 0.7 Nm           |
| Product weight                   | 50 g             |
| Interface code, actuator         | P4-28B           |
| Interface code, motor in         | 40A              |
| Interface code, coupling housing | 28B              |
| Note on materials                | RoHS-compliant   |
