

# Rod clevis CRSG-M27X2

Part number: 185361

FESTO

## Data sheet

| Feature                          | Value                                     |
|----------------------------------|-------------------------------------------|
| Size                             | M27x2                                     |
| Type code                        | CRSG                                      |
| Mounting position                | Any                                       |
| Based on norm                    | ISO 8140                                  |
| Corrosion resistance class (CRC) | 4 - Particularly high corrosion stress    |
| Ambient temperature              | -40 °C ... 150 °C                         |
| Product weight                   | 2022.1 g                                  |
| Note on materials                | Free of copper and PTFE<br>RoHS-compliant |
| Bolt material                    | High-alloy steel                          |
| Clevis material                  | High-alloy steel                          |
| Nut material                     | High-alloy steel                          |
| Fuse material                    | High-alloy steel                          |
