

## Connecting component KVI-CP-3-SSD

Part number: 543252

**FESTO**

### Data sheet

| Feature                          | Value                                                          |
|----------------------------------|----------------------------------------------------------------|
| Type code                        | KVI                                                            |
| Type of mounting                 | With external thread                                           |
| Product weight                   | 48 g                                                           |
| Electrical connection            | 5-pin<br>Socket<br>Straight socket/straight plug<br>M9<br>Plug |
| DC operating voltage range       | 60 V                                                           |
| Degree of protection             | IP65<br>IP67                                                   |
| Ambient temperature              | -20 °C ... 80 °C                                               |
| Note on materials                | Free of copper and PTFE                                        |
| Corrosion resistance class (CRC) | 2 - Moderate corrosion stress                                  |
| Housing material                 | Brass<br>Nickel-plated                                         |
| Seals material                   | NBR                                                            |
| Mounting position                | Any                                                            |
