

# Solenoid coil VACC-S18-120-A1-1A

Part number: 8040890

FESTO

## Data sheet

| Feature                          | Value                                                          |
|----------------------------------|----------------------------------------------------------------|
| Type code                        | VACC                                                           |
| Actuation type                   | Electrical                                                     |
| Mounting position                | Any                                                            |
| Switching position indication    | no                                                             |
| Duty cycle                       | 100%                                                           |
| Insulation class                 | H                                                              |
| Coil characteristics             | 24 V AC: 50/60 Hz, power 12.0 VA                               |
| Permissible voltage fluctuations | -15 % / +10 %                                                  |
| Corrosion resistance class (CRC) | 4 - Particularly high corrosion stress                         |
| Degree of protection             | IP65                                                           |
| Ambient temperature              | -20 °C ... 60 °C                                               |
| Product weight                   | 530 g                                                          |
| Electrical connection            | Form A<br>Plug<br>as per EN 175301-803                         |
| Note on materials                | Contains paint-wetting impairment substances<br>RoHS-compliant |
| Solenoid coil material           | PA<br>Steel                                                    |
