

Accessories

screw cap

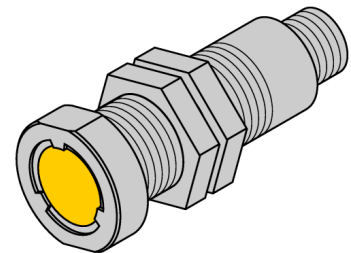

PN-M18

- Protective nut for flush mountable uprox+ sensors
- for M18 x1 threaded barrel sensor
- Stainless steel A2 1.4305 (AISI 303)

General description

The screw caps are screwed on the head of an uprox®+ flush sensor, protecting this way the active face against damages. Recessed mounting of the sensor head is obtained by the shroud, this way mechanical strains work on the screw cap but not on the sensor.

Type designation	PN-M18
Ident-No.	6905310
Design	Accessories for threaded barrels, M18
Housing material	Metal, V2A (1.4305)
